Dear patients!

State budgetary healthcare institution of the Astrakhan region "Regional Center for Public Health and Medical Prevention" is a unique multidisciplinary medical organization. Developing the best traditions of domestic and foreign medical science and practice, using innovative medical technologies and the latest equipment, we provide high-quality medical care to our patients. All employees of the Center - from administrative workers to highly qualified specialists in various fields of medicine - make every effort to ensure that our patients receive timely and high-quality medical care. As the head of the center, I guarantee highly qualified medical care and maximum participation in solving problems related to your health. I am sure that by visiting our specialists, you will certainly improve your health and receive valuable advice on how to further strengthen it.

**With respect to you and concern for your health,
Chief physician Selina Elena Grigorievna!**
